

Experiences Pilot Line

BOPP 2-100 μm 1/3/5/7-layer

- Balanced film
- MD tensilized film
- MD shrink label film
- High shrink cigarette film
- Low sealing temperature film
- White shrink label
- Matt film
- High sealing strength
- Ultra high barrier film
- Foamed film (synthetic paper)
- Breathable film
- 7-layer high barrier film
- Thin capacitor film
- Multi functional film
- Synthetic paper

BOPET 1-400 μm 1/3/5-layer

- MD tensilized film
- Ultra thin film
- Thick film (optical grade)
- Balanced film
- Matt film
- Heat sealable film
- Synthetic paper
- Low bowing, low shrink film
- MD tensilized film
- MD/TD shrink label
- Chemically treated
- White film

BOPA 4-25 μm

- Low bowing film
- Low shrink film
- Low haze
- High barrier film
- Ultra thin film

BOPE 15-50 μm 3/5-layer

- Display shrink film
- Barrier shrink film
- Low shrink film
- Bundle shrink film
- Breathable film

Battery Separator Film 9-40 μm 1-layer

- High porosity
- Low electrolyte resistance
- High puncture strength
- Shutdown function

and others:

BOPLA, BOCOC, BOPVDF, BOPEN, BOPEEK,
Shrink film for sleeves (MOPET, MOPS, MOPLA)
