

INDUSTRIAL FILMS
BOPET

High-end film for a better world

How oriented film contributes to global megatrends

Urbanisation

Safety

Digitalisation

Globalisation

Mobility

Health

Environmental protection

Fulfilling the demands for renewable energy supply
& flexible electronics

Solar Energy

Flexible electronics

Electrical insulation

cable insulation

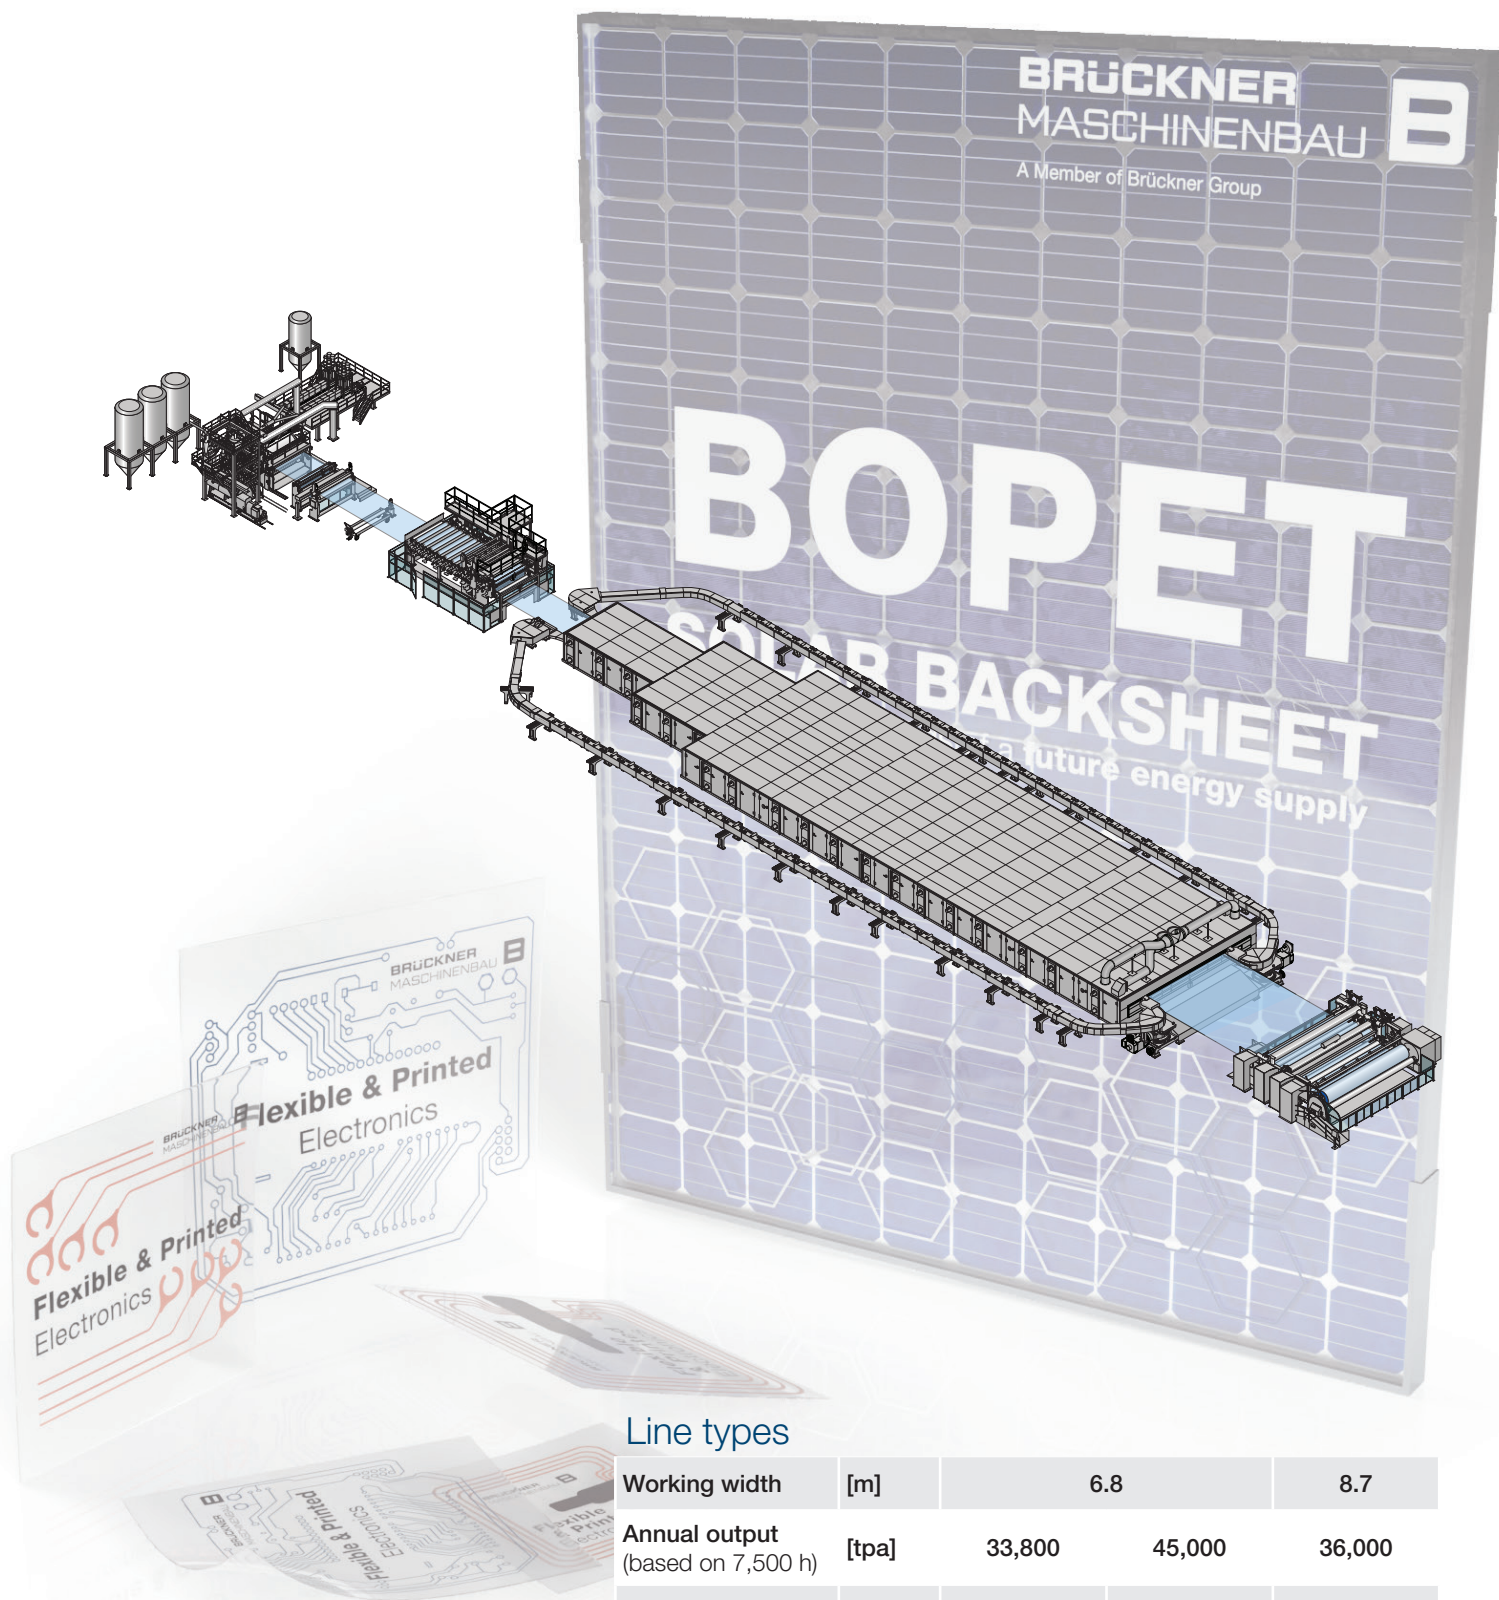

Window film

BOPET industrial film

Lines and components according to your requirements

Sequential

Line types

Working width	[m]	6.8	8.7
Annual output (based on 7,500 h)	[tpa]	33,800	45,000
Production speed	[m/min]	316	150
Thickness range	[µm]	20 – 188	50 – 350

For various industrial film applications

Sustainable energy supply & flexible electronics

Benefits

Most economical and highest output plant

Highest quality standard

Tailormade solution for the application

STRETCHING THE LIMITS
